

## Hand washing for students

	<p>Handwashing is the best way to remove germs from your hands and to help protect yourself. We should be washing hands for 20 seconds(sing happy birthday to yourself twice) Students should wash hands after coughing, sneezing or before touching their face.</p>
	<p>Students should wash their hands before leaving home to come to school. Students should also wash their hands at home before getting onto the school bus</p>
	<p>Upon entering the building, students will maintain 6ft social distancing. Handwashing or sanitizing will take place upon entering the classroom.</p>
	<p>Students will also be able to wash their hands before and after meal times.</p>
	<p>Students will also wash their hands when using the bathroom. After using the restroom students will wash their hands/hand sanitize upon to classroom to ensure hands are sanitized</p>

Students will also wash their hands/ sanitize before and after mask breaks.

#### Handwashing

- Please maintain the 6ft of social distancing in case of line for the sinks
- Run hands under water before applying soap.
- After applying soap please scrub your hands for 20 seconds (sing happy birthday to yourself 2 times). Please make sure you are washing in between your fingers, on the tops of your hands, the palm of your hands and your wrists.
- Dry your hands completely with a paper towel and turn off the water faucet with a paper towel and discard.
